

Bulletin 2026-02

Subject: Trout Lake Rally

Issue Date: 2026-09-26

Effective Date: Immediate

This Bulletin provides additional information to the previously issued Supp Regs

Diversion/Chicane Element:

The route book Diversions are actually Physical single element chicanes as per 13.5.2

a) Single element, designed to have the competitors leave the main road and then return,

The first is on stage 1 and 4 at 4:05 KM (page10) **and** will require downhill maximum braking into a hard left turn/ acute right combination around a 7-pylon element. This will not be possible in 3 rd. gear.!! (good luck in 2nd, we recommend first)

NOTE: The route book diagram does NOT represent the actual diversion in any way! *See page 2 of this bulletin*

The second is on stage 6 and 7 at 29.05 KM on page 24 (**NOT AT 27.92 KM**) and will require maximum braking into a hard right turn/ acute left combination around a 7-pylon element. This will not be possible in 3 rd. gear.!!

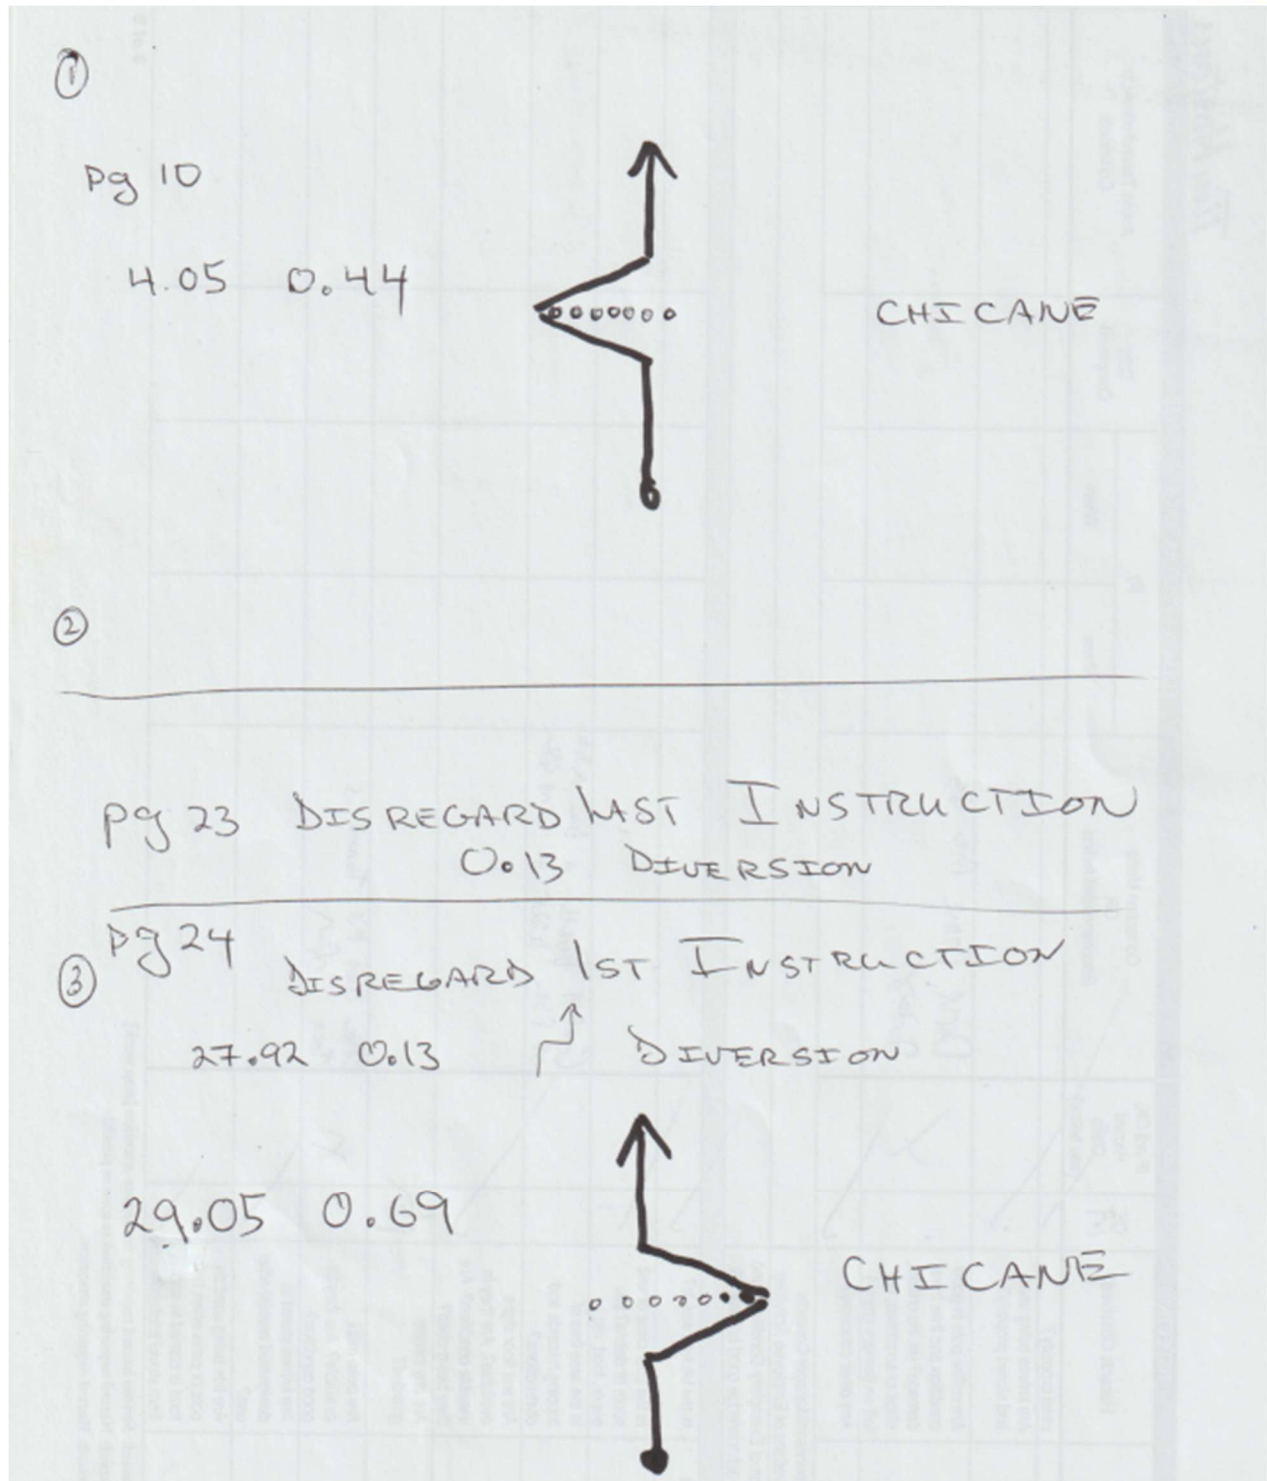

NOTE: The route book diagram does NOT represent the actual diversion in any way! *See page 2 of this bulletin for a better presentation*

Penalties shall be assessed by the organizers as per 17.2 e) Striking a physical chicane - 15 secs per element. Therefore: if you go straight through the chicane, displacing 4 pylons – the penalty will be 1 minute.

Further Bulletins will be issued as required.
